

CSCI 124 Discrete Structures II – Fall 2010

Instructor: Prof. Vora

Discussion

TA: Nadezhda (Nadya) Radeva

TA Office: Staughton Hall 102

TA Office Hours: Wednesday 11am-2pm

TA E-mail: nradeva@gwmail.gwu.edu

Handouts: You will need the handouts with problems that will be given to you in class

CLASS ORGANIZATION

This is a discussion session in which you will be given problems on topics covered in class. You are expected to come to class prepared – read your notes on the topic we will be discussing, read the notes posted on the course web-site, and work on the problems you will be assigned before you come to the discussion session.

Every week there will be a quiz given out during the last 20 minutes of the discussion.

During every session students will be asked to come to the board to show the solution to a problem. Participation is required, and all students are expected to solve problems on the board at least three times throughout the semester.

GRADES

Participation in the discussion session is 5% of your final grade for the class.

Max of 2 points will be given for the problem solved when the TA calls the student to the board.

Max of 1.5 points will be given for each problem solved when the student volunteers.

ATTENDANCE POLICY

Students will be expected to attend all regularly scheduled discussion sessions. If you have a reason to miss class, please, email me in advance. If you miss a session, try to get a copy of the class notes from another student or contact me with any questions you might have. I will not provide notes or solutions to problems. Students are expected to come to class on time and be prepared to solve problems. Students may lose credit towards the class for disruptive behavior. Credit loss can be in excess of 5%.
