Deadline for Application: 5 PM November 30, 2015

TO: Undergraduate students interested in Biomedical research

FROM: James Hahn, Director, GW Institute for Biomedical Engineering

The GW Institute for Biomedical Engineering is one of the signature programs at George Washington University. The aim of IBE is to foster research and education in the area of biomedical engineering. IBE has a number of interesting projects and we are looking for undergraduate students who would be interested in participating in these projects over Spring and Summer.

The applicant must have an IBE affiliated faculty member, who agrees to serve as the mentor (a list of IBE affiliated faculty members can be found in www.ibe.gwu.edu). It is expected that the students and the mentors will arrive at a mutually agreeable understanding on the scope of the research. Each student will receive a $5,000 stipend distributed over Fall, Spring, and early Summer. For SEAS students, based on project formulation and student background, the research may be extended into a senior capstone project.

ELIGIBLE STUDENT: Full-time, undergraduates with a GPA of 3.0 or higher.

APPLICATIONS SHOULD INCLUDE:

- Application cover page (form given at the end of this document)
- Proposal (max. 2 pages, 12 pt. font, 0.5” margins): Provide a description of the proposed research (background, motivation, objectives). Describe what if any equipment and facilities are needed to conduct the research.
- Student’s Resume
- Student’s unofficial transcript

SUBMISSION: Email submission to James Hahn, Director of the Institute for Biomedical Engineering, Suite 5830 Science and Engineering Hall, 202-994-5920, hahn@gwu.edu (by 5 PM November 30, 2015) with subject line "IBE Research Fellowship Application." Electronic submissions are required.

NOTIFICATION: Successful applicants will be notified by December 14, 2015.

REQUIREMENT: A presentation at an Institute for Biomedical Engineering seminar in Fall 2016 is required at the conclusion of the project. You are also required to enter your research poster in the SEAS Research Showcase and/or the GW Undergraduate Research Symposium.
